They are intended to minimize the burden of administering the network so that more time can be spent using the network for the educational purposes for which it is intended. Any attempt to circumvent security provisions is considered improper and will be viewed as a violation of the acceptable use policy.

The acceptable use of technology requires that users:

- Log in using only their own identification.
- May only run software that is supplied by the school.
- May only use the scanner, camera, colour printer or other devices attached to the network with permission and under the supervision of Gray Academy staff.
- Do not access or transmit, either internally or externally, any materials that may be considered pornographic, demeaning or libellous.

- Malicious use of the network to develop programs that harass other users, infiltrate a computer or computer system and/or damage the software components of the computer or computer system is prohibited.

## PLAGIARISM

At Gray Academy of Jewish Education we believe that intentional plagiarism demonstrates a lack of integrity and character that is inconsistent with the goals and values of our school.

Plagiarism includes:

1. Taking someone else's assignment or portion of an assignment and submitting it as your own.
2. Submitting material written by someone else or rephrasing the ideas of another without giving the source.
3. Submitted purchased papers as your own.
4. Submitting papers/or portions of papers from the Internet written by someone else as your own.

I have read and understood the above passages. I understand that any violation of the above rules may result in suspension, loss of computer privileges, loss of marks, course failure, and ineligibility for scholarships.
